COURSE SCHEDULE
KINE 4230: Neuronal development for activity and health.

COURSE DIRECTOR          Dr. Dorota Anna Crawford
Email: dake@yorku.ca

COURSE TA                 Christine Wong
Email: cwong87@yorku.ca

GRADING                   Midterm exam  40%
                          Final Exam    60%

TEXTBOOK                 Sanes, Reh and Harris: “Development of the Nervous System”
                          3rd Edition.

Exam relevant material will consist of (i) all the material covered in the lectures and power point slides and (ii) the content of the corresponding chapters from the textbook. Exams will consist of multiple choice and essay-type questions. It is strongly advised that you attend classes.

If you miss a midterm or final exam for a documented medical or other reason you will be required to write a make-up exam. Proper documentation must be delivered to the course director NO LATER THAN 1 WEEK FOLLOWING THE EXAM.

Do not approach the course director to have your grade increased. THE ANSWER IS NO!! Any grade adjustments will be applied to EVERYONE, no special circumstances will be granted. No “extra assignments” will be available for anyone to write.

COURSE DESCRIPTION

This course is intended to discuss the molecular mechanism involved in neuronal and neuromuscular development with an emphasis on physical activity, health and disease. It will focus on molecular and environmental cues that signal and promote differentiation, outgrowth and target-finding, and refinement of synaptic or neuromuscular connections and the acquisition of regional and cellular identity. Specific topics include the basics of cell signaling, neural induction, patterning, mechanisms of axon guidance, cell migration, proliferation and death, target recognition and synapse formation and elimination. Information drawn from these basic developmental mechanisms will be used to discuss the recent advances in our understanding of the pathogenesis of neurological disorders that affect health and physical activity.
COURSE SCHEDULE:

Lecture 1  Course overview
Lecture 2  Brain Development
Lecture 3  Early development of the Embryo
Lecture 4  Induction of the neural plate
Lecture 5  Neural Induction Cont’d
Lecture 6  Neuronal Migration
Lecture 7  Developmental Genes (Hox genes) and Retinoic acid
Lecture 8  Neural Tube Defects; Smith-Lemli-Opitz Syndrome
Lecture 9  Neural Tube Defects  Cont’d

MIDTERM EXAM

Lecture 10  Sonic hedgehog in development
Lecture 11  Neural crest cell migration
Lecture 12  Axonal pathfinding 1 - Neuronal polarity, axonal and dendritic growth
Lecture 13  Axonal pathfinding 2 - Axonal outgrowth
Lecture 14  Synaptogenesis - Synapse rearrangement and Synaptic plasticity
Lecture 15  Synapses and Myelination
Lecture 16  Synaptogenesis
Lecture 17  Critical Period - Experience dependent synaptic plasticity
Lecture 18  Nature vs. nurture
Lecture 19  Environmental causes of Neuronal Defect
Lecture 20  Disorders of Early Neuronal Development - Autism
Lecture 21  Research Methods for Studying Brain Development
Lecture 22  Review

MIDTERM EXAM (Lectures 2-9)
FINAL EXAM (Lectures 10-21)

Feb. 13-19  Reading Days
April 4  Classes end
April 6-20  Examination Period
Jan. 17  Last date to add a course without permission of instructor
Jan. 29  Last date to add a course with permission of instructor
March 4  Last date to drop course without receiving a grade
IMPORTANT GENERAL COURSE INFORMATION FOR STUDENTS

Academic Honesty and Integrity
York students are required to maintain high standards of academic integrity and are subject to the Senate Policy on Academic Honesty. There is also an academic integrity website with complete information about academic honesty. Students are expected to review the materials on the Academic Integrity website (http://www.yorku.ca/academicintegrity).

Access/Disability
York provides services for students with disabilities (including physical, medical, learning and psychiatric disabilities) needing accommodation related to teaching and evaluation methods/materials. It is the student's responsibility to register with disability services as early as possible to ensure that appropriate academic accommodation can be provided with advance notice. You are encouraged to schedule a time early in the term to meet with each professor to discuss your accommodation needs. Failure to make these arrangements may jeopardize your opportunity to receive academic accommodations. Additional information is available at www.yorku.ca/disabilityservices or from disability service providers:

- Learning and Psychiatric Disabilities Programs - Counselling & Development Centre: 130 BSB, 416-736-5297, www.yorku.ca/cdc

Religious Observance Accommodation
York University is committed to respecting the religious beliefs and practices of all members of the community, and making accommodations for observances of special significance to adherents. Should any of the dates specified in this syllabus for an in-class test or examination pose such a conflict for you, contact the Course Director within the first three weeks of class. Similarly, should an assignment to be completed in a lab, practicum placement, workshop, etc., scheduled later in the term pose such a conflict, contact the Course director immediately. Please note that to arrange an alternative date or time for an examination scheduled in the formal examination periods (December and April/May), students must complete an Examination Accommodation Form, which can be obtained from Student Client Services, Student Services Centre or online at http://www.registrar.yorku.ca/pdf/exam_accommodation.pdf

Student Conduct
Students and instructors are expected to maintain a professional relationship characterized by courtesy and mutual respect and to refrain from actions disruptive to such a relationship. Moreover, it is the responsibility of the instructor to maintain an appropriate atmosphere in the classroom, and the responsibility of the student to cooperate in that endeavor. Further, the instructor is the best person to decide, in the first instance, whether such an atmosphere is present in the class. A statement of the policy and procedures involving disruptive and/or harassing behaviour by students in academic situations is available on the York website http://secretariat-policies.info.yorku.ca/policies/disruptive-andor-harassing-behaviour-in-academic-situations-senate-policy/
